PROFESSIONAL SUMMARY

Full-Stack (MERN) Developer with hands-on experience building and deploying production-ready web applications, including a campus placement platform, AI-powered ATS resume analyser, and e-commerce system. Strong in React.js, REST API development, and secure authentication, with a focus on scalability, performance, and clean architecture.

EDUCATION

Vasireddy Venkatadri Institute of Technology, Guntur

July 2024 – Present

BTech in Artificial Intelligence & Data Science | CGPA: 8.17/10.0

VKR & VNB Polytechnic, Gudivada

Oct. 2021 – June 2024

Diploma in Computer Engineering | Percentage: 90.95%

PROJECTS

Campus Connect | *React.js, Node.js, Express.js, MongoDB, JWT Authentication*

Jan. 2026 – Present

- Engineered a role-based placement platform with Admin-controlled workflows, ensuring all job postings and user verifications pass through a centralized approval system.
- Built secure RESTful APIs with JWT authentication and middleware-based authorization, enforcing strict access control across Admin, Alumni, and Student roles.
- Designed MongoDB data models and backend workflows to manage the complete job lifecycle from posting and approval to application tracking and final selection.
- Developed admin moderation modules for alumni verification, job approval, and academic validation, preventing unauthorized access and maintaining platform credibility.

AI ATS Resume Analyser | *React.js, Node.js, Express.js, MongoDB, AI Integration*

February 2026

- Developed an AI-powered web application that analyses resumes against job descriptions and generates structured ATS compatibility scores with actionable improvement suggestions.
- Built backend APIs for resume processing, data storage, and analysis workflows, enabling automated screening logic.
- Designed a responsive frontend to deliver actionable insights and improvement suggestions for better recruiter visibility.

Nxt Trendz | *React.js, Node.js, Express.js, MongoDB, JWT Authentication*

Jan. 2026 – Mar. 2026

- Built a full-stack e-commerce application with authentication, product filtering, and persistent cart functionality.
- Implemented REST APIs for product, user, and cart management, secured with JWT authentication and password hashing.
- Integrated security best practices including protected routes and backend validation to ensure safe user interactions.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, SQLite

Tools: Git, Postman, Render, Vercel

Soft Skills: Self-Learning, Teamwork, Time Management

CERTIFICATIONS

- Programming in Java** - NPTEL
- Full Stack Development** - NxtWave
- React.js, Node.js & Express, SQLite** - NxtWave
